QUOTA ACHIEVED

CURTAIN COMES DOWN ON VIIIth VICTORY LOAN

Last Saturday saw the final gong ring on the Local VIIIth Victory Loan Campaign.

It is a pleasure to report, that Wainwright did well and exceeded its quota of \$144,000.00, by at least \$30,000.00. At last reports, just as we were going to press, the total stood at \$163,000.00, with a few late subscriptions still coming in. To achieve this splendid record, there was a total of 860 applications received.

In comparison with the VIIIth Victory Loan, there was an overall total of \$284,150.00 with 751 applications.

No one should doubt the hard work involved in a campaign of this size. Much credit is due the Committee, and the salesmen, for their untiring efforts in once again establishing Wainwright as a sure thing, when it comes to Victory Loans.

The public, including the town people and farmers have made it possible to continue each loan with a greater objective in sight every time.

While these results are of great interest to each and everyone of us here, they are, we are told by men returning from theatres of war, watched with the keenest interest by those carrying the heavier load overseas. Any accomplishment of ours at home must be viewed as trifling when compared with the job being performed at such cost by our men in the war theatres. But there is a justifiable feeling of pride and satisfaction in having successfully carried through this VIIIth Victory Loan. This responsibility to our boys and girls in the armed services is the least we can do.

The following graph is a day by day showing of the number of subscriptions, and the amounts subscribed. It might prove misleading as to the total, but this the actual amount that was subscribed up to last Saturday. The few late comes make the difference in the overall total of applications and subscriptions.

Day	Amt. Sub.	No. of Appl.
1st day	\$15,150	53
2nd day	12,800	24
3rd day	5,900	36
4th day	3,400	17
5th day	5,950	20
6th day	20,300	51
7th day	5,900	39
8th day	15,000	80
9th day	7,950	27
10th day	7,085	29
11th day	1,950	16
12th day	14,300	26
13th day	21,000	69
14th day	V-E DAY	
15th day	25,900	79
16th day	29,000	91
17th day	13,150	50
18th day	49,550	141
Total	255,850	850

Cpl. Ronald Seabrook Married in Toronto

An interesting wedding Saturday April 7th was that of Miss Mollie Main and Cpl. Ronald F. Seabrook, RCSC, who were married by Rev. J. R. Sanderson in Beaches Presbyterian Church, with Mr. Thompson at the organ. The bride is the daughter of Mr. and Mrs. Nell Main, while Cpl. Seabrook is the son of Mrs. Frank Seabrook and the late Mr. Seabrook.

Given in marriage by her father, the bride was gown in ivory brocade satin and carried a cascade bouquet of red roses, white freesia and heather. Maid of honor was Miss Isabel Main and her bridesmaid was Miss Agnes Main, both sisters of the bride. Miss Isabel Main wore forget-me-not blue chiffon trimmed with matching lace, while Miss Agnes was in peach taffeta. Each had a harmonizing headpiece with veiling and carried bouquets of roses. Best man was Cpl. James Bradshaw, RCSC, and the bride's brother, Lieut. James M. Main, was usher.

The reception was held in Chez Paree, Bloor street, with the bride's mother receiving in a flowered silk jersey, and corsage of yellow roses.

As the young couple left on their honeymoon to the United States, the bride wore a travelling costume of lilac green, a suit trimmed with Persian lamb under a black chesterfield coat, and black accessories. The groom has just recently returned from service overseas. He won the Military Medal in Italy.—Con.

A.M.A. Will Issue 70,000 Strip Maps

Approximately 70,000 "strip" or sectional road maps will be issued shortly by the Alberta Motor Association. These maps will be distributed to branches of the A.M.A. in Calgary, Edmonton and Lethbridge by the end of April.

The maps have been brought up to date in every particular, any changes in the road system having been checked with the public works department.

Different sections of the provincial highways system are shown, while each map contains a variety of information needed and welcomed by motorists. There are road mileages, type of highway, garages and filling stations, hotels, lake resorts, and data that concerns the official appointments of the A.M.A.

Now that the touring season is about to open, motorists will welcome the distribution of these "strip" maps. They will be available at official appointments of the A.M.A., and at other places where they can be readily obtained by motorists.

Cpl. C. T. Moore Wed in England

Word comes to us from England that Cpl. C. T. (Ted) Moore has joined the ranks of the benedicts there. Cpl. Moore, it will be remembered, had charge of Moore Freightways running between Wainwright and Edmonton prior to his enlistment.

The wedding took place in Aldershot, Hants, on March 17th, when Miss Ruby Dora Watkins became the bride of Cpl. C. T. Moore. After the ceremony a reception was held at the home of the bride's parents at Aldershot to some fifty friends of the bride as well as British and Canadian service personnel.

WEDDING BELLS

Rev. A. D. Richard performed the rites on Saturday, May 12th in the United Church Parsonage, Wainwright, uniting Miss Margaret Johana Johnson and Mr. John Peterson in marriage. Both contracting parties were from Czar.

Mrs. Russell Mack (nee Eleanor Cork) arrived from the East at the week-end to spend a holiday with her parents Mr. and Mrs. E. L. Cork in town.

Bank of Montreal Crop Report

In the Prairie Provinces where it has been both cold and wet, seeding has now begun in some southern sections, but the season is backward, and elsewhere than in southern locations, operations are not yet under way. There is sufficient moisture generally for germination, but subsoil reserves are inadequate in some districts, particularly in parts of southwestern and west-central Saskatchewan and central and southern Alberta, and early rains will be required in these areas. The acreage to be sown to wheat will be somewhat lower than last year, with an increase in the coarse-grain acreage anticipated.

In Alberta cold weather and snowfalls have delayed spring work two weeks. Seeding has commenced in southern districts, but elsewhere operations are not yet under way. Surface moisture is adequate for germination, with reserves only fair to poor over most central and southern areas. Indications point to a reduced wheat acreage, as compared with last year, and an increased acreage of coarse grains. Sugar beet seeding is under way.

Buy War Savings Certificates

Hospital to Build Concrete Incinerator

The regular monthly meeting of the Board of Trustees of the Wainwright Municipal Hospital District No. 17, was held at the Hospital, Saturday May 12, 1945. Members present were: Chairman, Trustees Gould; and Trustees McLeod, Gardiner, Oxy and District.

Minutes of the last meeting were read and on motion of Trustee McLeod were adopted. Carried.

Moved by Trustee Oxy that Mr. B. Laird be asked to build a concrete incinerator according to specifications set out at the last Board meeting, but floor to have six inch slope to door. Carried.

Moved by Trustee Dietrich that secretary arrange to have the old well put in working order and have pressure cylinder checked and repaired if found necessary. Carried.

Moved by Trustee Gardiner that the dining room chairs be repaired. Moved by Trustee Oxy that Matron purchase one baby crib. Cd. A complaint from Mr. H. Craig was brought to the attention of the Board and after investigating same it was moved by Trustee Gardiner that secretary write Mr. Craig giving him a report of the findings. Cd. Matron's report for the month of April was as follows:

Number of patients admitted	84
Number of patient days	749
Classification of patients admitted:	
Surgical	17
Medical	39
Obstetrical	14
Infants Born	14
Total	84
Deaths	3

Moved by Trustee Gardiner that Matron's report be accepted. Cd.

Matron reported that Miss E. Sheen (maid) had handed in her resignation, and on motion of Trustee McLeod Miss Sheen's resignation be accepted. Carried.

The finance committee reported they had examined the bank book and ledger and found same to be correct and on motion of Trustee Oxy the report be accepted. Cd.

Moved by Trustee Gardiner that accounts amounting to \$2,328.47 be approved and cheques issued. Cd.

Moved by Trustee McLeod that the meeting adjourn. The next regular meeting to be held June 9th, 1945, at 7 p.m.

New Procedure for Military Call Up

The Minister of Labour, after conferring with the Minister of National Defence by telephone, announces that the following decisions have been made in respect to "call ups" for the Army:

(1) On and after this date, call ups for the Army are suspended.

(2) Arrangements have been made that volunteers will be enrolled for the war in the Pacific and there will be an opportunity for any men who wish to do so to volunteer for this service.

(3) Any men ordered for medical examination who were due to report prior to May 7, 1945 must do so and be medically examined; however, those who are found fit for the Army will not be called for military service for the present.

(4) Any men who have been called to report for military duty on May 7 or on a prior date, who have not reported and are consequently delinquent, must do so and if found medically fit will be enrolled in the Army.

(5) Any men who have been called to report for military service on a date after May 7, 1945 will be given transportation and sent home and will not be enrolled for Army service unless they volunteer for service in the Pacific.

Valuable Chemical Harvested from Lake

Crystal-covered lakes dotted across the Canadian prairies yield each year an unusual and valuable harvest of a widely used chemical compound, sodium sulphate.

When investigation of the deposits in White Lake, near Palo, Saskatchewan, was first undertaken by Canada's Department of Mines, it was estimated that approximately 19,780,000 tons of hydrous salts existed in the lake in deposits varying in depth from three to seven or more feet.

Tens of thousands of tons of the dehydrated crystal, known to the trade as "salt cake", are required each year in the manufacture of kraft paper. Canada's glass industry also uses the chemical and large tonnages are required in the smelting of nickel and copper ores and in various branches of the chemical industry.

In the late summer and in dry seasons, the lake becomes a huge deposit of crystallized salts. These deposits are harvested by scrapers and fleets of trucks which pile up huge reserve stocks.

The story of this unusual Canadian industry is told by Kenneth Liddell in the current issue of C-I-L Oval.

Local Elks Raffle Bond

On Monday night of this week there were three lucky people who are 65.00 richer than previous.

The Elks Lodge have raffied off a \$50.00 Bond, a \$10.00 War Savings Certificate and a \$5.00 War Savings Certificate, in aid of a local play ground for children.

They have the ground laid out and are now waiting for funds for the purchase of necessary equipment. The whole idea is a very worthwhile project, and deserves the support of everybody in the town. With the raffling of the prizes, a substantial start has been made towards their goal. They wish to take this opportunity to thank everyone, who in any way helped to make this campaign a success.

The draw for the bonds took place in the Elks theatre on Monday night, the lucky winners were:

1st prize, Mr. John Ford, \$50.00 Victory Bond; 2nd prize, Mr. Frank Jacobs, \$10.00 Certificate; 3rd prize, Miss Kay Attwell, \$5.00 Certificate.

Our congratulations are extended to these lucky winners, and here's hoping for better luck for us, next time.

W.H.S. HI-LITES

Last Saturday evening, May 12th, our grade IX's sponsored a W.H.S. dance for which they should be justly proud. The Irma and Edgerton high schools were invited and I'm sure that a good time was had by all. Lorne McLeod, chairman for the evening, kept the party in full swing with bingo, elimination and spot dances. Very appropriate prizes were given for the latter two. Keep up the good work grade IX's.

The Annual W.H.S. Prom to be held on May 31st, is quickly drawing near. We would like everyone to attend, so make those dates now. Tickets are \$2.00 per couple.

On Sunday, May 13th, a lively baseball game took place between our W.H.S. boys and the Vets. The High School was, of course, victorious with a score of 19-14.

Mrs. C. Freed returned home after spending a couple of weeks visiting with relatives at Wildwood.

CARD OF THANKS

I wish to take this opportunity to thank my many good friends and neighbors for their kind assistance in seeding my wheat crop last week during my recent illness.

ASHTON GOLDING

Issues Production Directives Textiles

Available fabrics will be directed to manufacturing essential civilian garments under an extended system of production directives devised by the Wartime Prices and Trade Board.

Production directives which have the effect of squeezing out less essential types of goods, were originally introduced for children's underwear in July 1943. Directives since extended to cover all types of underwear, woollen work clothing, women's hosiery and children's and boy's clothing, will now embrace additional essential types of women's, children's and men's clothing as well as counter piece goods.

Since Canada is a large importer of textiles from the United Kingdom and the United States, her supplies have been affected by the world position. Although war requirements will decrease with the end of the war in Europe, demand for clothing by liberated countries will be one of the most urgent problems confronting the United Nations.

ANNOUNCE CHANGES

WARTIME CONTROLS

Changes in wartime taxes and controls to facilitate conversion from war to peace economy are announced by Acting Prime Minister J. L. Halsey, who said changes would assist Prices Board objective of returning consumer goods to the market at 1941 prices.

Mr. Halsey announced removal of controls on a number of household articles and lifting of special taxes including 25% excise tax on household electric and gas appliances, 8% sales tax on building materials and 10% war exchange tax for imported manufacturing equipment and building materials.

Other changes included reduction to 10% of special excise tax on radios, phonographs and cameras, introduction of a flat 10% special tax on passenger automobiles, and further relaxation of restrictions on travel to the United States.

BUY WAR BONDS & STAMPS

WEDDING BELLS

A quiet wedding was solemnized in the United Church Parsonage, Wainwright on Saturday, May 12th, when Miss Hazel Agnes Mikkelsen became the bride of James Louis Bushy, both of Irma. Rev. A. D. Richard performed the ceremony.

A.M.A Promotes Safety on Roads

Reckless driving on Alberta highways should be checked by effective measures, according to officials of the Alberta Motor Association.

In these times, everything possible must be done to promote safety in driving. This is demonstrated in the dominion wide campaign sponsored by the police chiefs' association which has for its purpose the inauguration of a brake testing period.

Safe driving is essential in the interests of tire conservation and protection of the car equipment generally. Wartime regulations still are in effect and there is no indication that they will be relaxed for some time to come. That makes it all the more necessary to observe extreme care of the car to ensure a longer life for the vehicle.

High speed driving is injurious to tires and also increases the operating cost of the car. Replace speed with safety and cut down the accident toll, says the A.M.A.

A capacity crowd turned out on Monday night at the Separate School to attend the show put on by "Lever Brothers", "Lifebuoy" and "Wep well" rewarded. A good evening's entertainment was supplied; with the proceeds from this going to the Local Branch of the Red Cross.

Coupon Calendar

May 17	Butter	Coupon 107
	Sugar	Coupon 58, 59
	Preserves	Coupon 47-56
		(includes 8 extra for sugar for canning)
May 31	Butter	Coupon 108

FREEZE STOCKS

OF CANNED MEAT

Effective May 11, all stocks of canned meat were frozen by the Wartime Prices and Trade Board. Most of the frozen stock plus at least 90% meat canned after May 11 will be bought by government agencies for delivery overseas.

Announcing the decision, Acting Prime Minister J. L. Halsey explained it as "one of a number of steps being taken by the Canadian government to supply increased food to the starving millions of liberated Europe."

'CONGRATULATIONS'

The Wainwright-Irma and Farming Districts attained their objective in the 8th Victory War Loan Drive.

"Our Sincere Thanks"

To the Public for their loyal support. To the merchants who kindly donated their advertising space. To the "Salesmen" and "all others" whose team work and untiring efforts have made this big undertaking possible.

THANK YOU

MRS. F. G. ROBERTS Unit Secretary
Carl Stafford Unit Chairman

Canada Reduces Sugar Ration

OTTAWA—A cut in the individual sugar ration from 14 to nine pounds for the period June 1 to Dec. 31 was announced Monday by the prices board.

The reduction will be made by allowing consumers one pound a month instead of the present two pounds for June, July, August, October and December. The September and November rations will remain at two pounds to allow as much home canning as possible.

The home canning allotment of 20 30 preserves coupons will be left intact and the two regular preserves coupons will continue to become valid each month.

In addition to affecting householders, the reduction will apply to the armed forces, jam and wine manufacturers, bakers, biscuit and breakfast cereal plants, soft drink manufacturers and quota users, such as restaurants and hotels.

Decision to make the cut followed a recent conference in Washington at which it was reported that United Nations requirements are 1,254,000 tons more than available supplies.

TO BLOOD DONORS IN

THE PROVINCE OF ALBERTA

With the fighting in Europe at an end, our efforts are still needed. Blood Donor Clinics will be continued, and their continuance is definitely associated with your voluntary effort of giving your blood. The Red Cross hopes that instead of seeing a decrease in donations there will be an increase, so that there will be an adequate supply to be used in our Military Hospitals at any time, as this material is a vital factor in restoring our wounded men's health when they are forced to undergo an operation.

The Red Cross wish to thank you for your past efforts and we know that you will not fail to continue.

The Canadian Red Cross is Ready!

Hints for the Household

BREAD BASKET DELIGHT

There's nothing like a batch of home-made Yeast Rolls! Fresh, warm, and light, they're a classic favorite among breadstuffs.

Save-A-Day Rolls are just what their name implies. You can mix the dough the day before and store it in the refrigerator. When you're ready to bake, take out just enough dough for the rolls you want for one meal and use the rest another day. Comes meal time, it takes only fifteen minutes to bake a hot fresh batch of rolls while the rest of the food is being prepared. This recipe for Bran Save-A-Day Rolls brings results that taste as good as they look.

Save-A-Day Rolls

1/4 cup shortening
1/4 cup sugar
2 cups bran
2 teaspoons salt
1 cup boiling water
2 eggs, well beaten
2 cakes compressed yeast
1 cup lukewarm water
4 (or more) cups sifted flour
Put shortening, sugar, bran and salt in large mixing bowl; add boiling water and stir until shortening is melted. Let stand until mixture is lukewarm. Add eggs and yeast which has been softened in lukewarm water. Add half the flour and beat until smooth; add remaining flour, mix

well. Let rise until double in bulk; punch down. Form balls of dough to fill greased muffin pans about half full. Let rise in a warm place until double in bulk. Bake in a moderately hot oven (425°F.) about 15 minutes.
Yield: 4 dozen rolls (2 1/2-inch diameter).

Chefs Use Lemon with Fish.

Here's a place where you can call on that master of food—the chef. His secret for glamorizing fish is simple. Use lemon—lemon juice in the cooking—lemon quarters for garnish (they give color to this somewhat colorless food, as well as flavor)—lemon juice in the sauce or dressing.

Try This Easy Way to Cook Fish

An example is this quick and easy method of broiling fish, equally good for Dad's catch of trout or the fish you brought home from market.

Have fish in slices or other pieces the right size and thickness for frying. Sprinkle fish pieces generously

with lemon juice. Flour one side only. Cover bottom of broiler pan or shallow baking dish with oil or melted fat. Dip floured side of fish in the hot oil. Turn at once. Season with salt, pepper and paprika. Broil floured side up, without further turning, until cooked through and browned—about 12 minutes.

Se've fish on a hot dish with sprigs of parsley and quarters of unpeeled lemon. Note that this method keeps the odor of cooking fish at a minimum.

Use Up Fish "Left Overs." "Left overs" of cooked fish can be used in place of canned salmon and tuna, for a variety of dishes your family will like—fish chowder, creamed fish, fish salad, fish cocktail, and others.

Creamed Fish. Add flaked, cooked fish to a medium white sauce. Serve on toast points or shortcake style on hot, split, buttered biscuits. Before adding fish to sauce, sprinkle with a little lemon juice—just enough to bring out the full flavor of the fish but not enough to make it sour. Hard cooked eggs can be added to fish to make it go farther. In this dish, an uncooked egg may also be stirred into the hot sauce.

Fish Salad. Sprinkle flaked, cooked, left over fish with lemon juice. Combine with chopped celery or cabbage and mayonnaise to taste. Chopped, hard cooked eggs may be added to make the fish go farther.

Fish Cocktail

1 cup cooked, flaked fish or other seafood, such as shrimps, etc.
1/4 cup finely cut celery
1/4 cup tomato catsup
1 teaspoon Worcestershire sauce
1/4 cup lemon juice
1 cup finely cut onion or chives
Combine and chill thoroughly. Serve in cocktail glasses, accompanying each service with a lemon quarter. Serves 4 to 5.

Poached Fish. Rather than boil fish, poach it—that is, keep it in hot water just under the boiling temperature until cooked. Season water in which fish is cooked with lemon juice and salt (1 tablespoon lemon juice and 1/2 teaspoon salt to 1 quart of water). The lemon juice also helps to keep flesh of fish white.

Lemon Tartar Sauce for Fish. Chefs serve tartar sauce with fish. To make this, add a little chopped onion or onion juice, chopped sweet pickle and lemon juice to taste, to mayonnaise.

Cauliflower-Orange Salad

1/2 cup cauliflower flowerets
1/2 cup orange wedges (bite size)
2 tablespoons finely chopped green pepper
1/2 cup diced celery
Few drops onion juice
Salt

Combine ingredients and season to taste. Chill; serve on salad greens with:

Lemon French Dressing

1/2 cup lemon juice
1/2 cup salad oil
1 teaspoon each of salt and paprika
2 tablespoons sugar or honey
Shake together well. Add 1/2 teaspoon celery seed and clove of garlic, if desired. Makes 1 cup.

Raisin Bran Muffins

1 cup sifted flour
3/4 teaspoon double-acting baking powder
1/2 teaspoon salt
1 egg, well beaten
1 cup milk
3 tablespoons melted butter or other shortening
2 cups Post's Raisin Bran
Sift flour once, measure, add baking powder and salt, and sift again. Combine egg, milk, and shortening; add to flour mixture, beating only enough to dampen all flour. Add raisin bran. Turn into well-greased muffin pans, filling them 2/3 full. Bake in hot oven (425°F.) 20 minutes, or until done. Makes 10 medium muffins.

For a sweet muffin, add 2 tablespoons sugar, honey, or corn syrup to milk mixture.

Raisin Bran Spice Muffins: Sift 1/2 teaspoon each allspice and cloves and 1/4 teaspoon ginger with flour. Add 2 tablespoons sugar. Combine 1/2 teaspoon cinnamon and 1 tablespoon sugar and sprinkle over tops before baking.

First Aid for Baby Beauty

Whether you are the mother of a baby, a toddler, a kindergartner or all three, you will find first aid for their beauty problems in baby lotion, a new kind of product intended for all-purpose use in cleansing and lubricating baby skin. Baby lotion, developed by a famous maker of baby products, is a fragrant, pure white emulsified product containing lanolin, with an antiseptic agent added for extra protection. Beauty routine for babies, toddlers and kindergartners begins with all-over rub-downs with baby lotion after each bath to help ward off skin irritations due to cold and heat, sun and wind.

John Bracken — The Man

John Bracken, the son of a farmer Ephraim Bracken and his wife, Alberta, was born in a log cabin in Ellisville, Leeds County, Ontario, on the 22nd of June, 1883.

Here, briefly chronicled, are the main events in the life of John Bracken:

- 1898 - Student at Brockville Collegiate, Ontario.
- 1902-5 - Student at the Ontario Agricultural College, Guelph. He won four scholarships, the Governor-General's Medal, was top honours student and class medalist. Here, too, he met Alice Wylie Bruce.
- 1906 - Young Bracken went to Winnipeg as representative of the Seeds Branch of the Dominion Department of Agriculture.
- 1907 - In the neighbouring Province of Saskatchewan, John Bracken became Superintendent of Fairs and Farmers' Institutes and Secretary of the Provincial Livestock Association.
- 1910 - John Bracken was appointed Professor of Field Husbandry at the new University of Saskatchewan. He took the first train to Guelph, Ontario, married Alice Wylie Bruce. Four sons were born—three of whom are now on Active Service with the Navy, Army and Air Force.
- 1920 - Already the author of two books on agriculture, John Bracken became President of the Manitoba Agricultural College.
- 1922 - John Bracken accepted the leadership of the Progressive Farmer Government, was sworn in as Prime Minister of Manitoba.

Now began the political life of the most continuously successful political leader the Empire has produced in this century. Since that day—from 1922 to 1942—John Bracken has never been defeated.

- 1932 - The Liberals joined John Bracken's farmer government.
- 1940 - All the other political parties, including the C.C.F. and Social Creditors, threw in their fortunes with a great leader forming a wartime Coalition Manitoba government.
- 1942 - The year of John Bracken's great decision. John Bracken, the Progressive, accepted the national leadership of a great resurgent people's party—The Progressive Conservatives.

B-1 Published by the Progressive Conservative Association, Ottawa.

Can. Garden Ser.

Much for Little

Where space available for the vegetable garden is very limited, bulky plants like corn, peas, tomatoes, potatoes and other large vegetables create a special problem. Unlike lettuce, spinach, beets, beans, carrots, etc., which can be fitted in to rows only 16 inches apart if necessary, these other things take up considerably more room. Corn, tomatoes and potatoes need from 18 inches to 2 feet between hills or plants, and if one is to have enough green peas for a meal from one picking, then at least 30 feet of row, and preferably 50, will be necessary.

Most small garden operators—those with only a plot 20 feet or so, each way at their disposal—usually decide after some experience to abandon potato growing altogether. And the experts agree that they are wise. The first new potatoes right from the garden at the door are a treat, but there are other things that take up less room that are even more satisfying. But the other three vegetables mentioned should not be given up without more consideration. It is absolutely impossible to duplicate the quality of peas or corn right out of the garden. As a matter of fact, a distinct change takes place in both vegetables in from two to four hours after picking. The sugars change to starches and that is the reason why ordinary 'bought' corn and peas simply do not compare in sweetness with the same vegetables picked fresh, cooked and ready for eating within an hour of harvesting.

Must have a Reason

A good general rule in laying out grounds is to break straight lines wherever possible. This means wavy edges of perennial borders rather than straight ones, clumps of shrubbery and trees rather than rows, curved paths and driveways rather than the other kind. It also means, in screening, clumps of shrubbery at the corners of all buildings, and at least here and there along foundation lines, fences and walls, even attractive ones, partly screened, and the other kind completely hidden by vines, trees and

shrubs. But one can go too far in this direction. One must provide a reason for a curve if a real one is lacking. Shrubby or trees are planted to give this reason. Because they hide the view ahead they also add mystery to every turn and make even a small garden look quite spacious.

How to Handle Slopes

Handling of sharp slopes is another special problem. Experts caution against having the lawns drop away too steeply. Not only is the general effect less pleasing but there is a very real danger of heavy storms loosening the soil and starting washouts. In most cases, they advocate laying out the grounds on two levels, with a bit of heavy shrubbery or a rock garden connecting the lower with the higher. If the drop is only a foot or so sometimes a low stone wall or simply a reinforcing of flag stones laid flat will accommodate the drop.

For a rock garden, well weathered, fairly large stones give best results. These should be sunk about two-thirds deep, firmly in the ground, with pockets of soil in between. In these pockets special low growing rock plants, listed in any good seed catalogue, are planted.

Department of Fisheries

Administration of all of Canada's tidal fisheries, those of Quebec excepted, is a major function of the federal Department of Fisheries, which also administers the non-tidal fisheries of Nova Scotia and those of the Northwest and Yukon territories. Field officers (supervisors, in-

spectors, guardians) are stationed at appropriate places in the Maritime Provinces and British Columbia to carry on administrative and patrol services, but in the Northwest and Yukon territories, where commercial fishing is at present small scale, administration is handled for the department by RCMP officers. Inspection of fish products covered by the Fish Inspection Act and the Meat and Canned Foods Act is done by field men and by the scientific staffs of fish inspection laboratories on the two coasts. Departmental employees instruct fishermen in fish handling and processing. Some 25 fish hatcheries and subsidiary establishments under this department aid in maintaining and increasing the stocks of commercial and sport fish. An engineering branch looks after drafting building plans, fishway construction, etc. Another branch collects fisheries statistics and distributes information. Fish foods and their uses are studied by departmental home economists. An important wartime duty of this department is to supervise the arrangements under which great supplies of Canadian fish are made available to the United Nations.

Plastic Surgeon

Considered by his colleagues to be the most brilliant plastic surgeon in Canada, and one of the most brilliant in the world, Lieutenant-Colonel Stuart Gordon of Toronto has recently taken over the post of surgeon in charge of plastic surgery at Christie Street Hospital and adviser in plastic surgery to the Director-General of Medical Services for the Canadian Army. In 1941 Colonel Gordon was placed in charge of the Canadian Army's first overseas plastic surgery unit, where he personally handled the first facial casualties to come back from Dieppe. In May, 1943, he was put in charge of all plastic surgery at the famous Basle Hospital in England, and came back to Canada last August to take over in Canada.

There are three Joint Services' Special Treatment Centres in Canada, in Toronto, Montreal and Vancouver. Canada's facilities for repairing mutilated service men are second to none in the world.

Said an Army surgeon attached to one of these units, "Plastic surgery has, since the war, advanced to a point it would have taken perhaps 100 years to reach in times of peace. So fast is new knowledge being acquired, that techniques 18 months ago have in many cases been so far surpassed as to be regarded now as obsolete."

You Needn't Get Stung

Perhaps there isn't a living soul who hasn't been stung at one time or another on a second-hand purchase. Most people have bought clocks that wouldn't alarm, cameras that wouldn't click, mirrors that distorted and chairs that collapsed, and have paid far too much for the experience. But it's not necessary any longer to get soaked for worthless junk. The Wartime Prices and Trade Board has established new ceiling regulations on a great variety of second-hand goods and musical instruments. When in doubt, get the list of prices from the nearest WPTB office.

Three Centuries of Wheat

The growing of wheat in Canada can be traced back approximately 240 years to the summer of 1605, when a French settlement in the Maritimes cut the first crop. Today one of Canada's leading export commodities, Canadian wheat, was being exported as far back as 1754 to the tune of 80,000 bushels.

There is one common meeting ground for all mankind. We all need to change.

Bad practices don't stop when we condemn them. But only when we practice something better.

HURRAY

for TODAY!

V-DAY means not a thing to this husky young rascal, unless it is his Daddy's coming home. This little citizen is happy any day so long as he's well fed and feeling fine.

Yet he—above us all—is the one to shout for joy today.

Is it not for him—and for millions of bright faces of his generation—that men have been willing to suffer and to lay aside their freedom—bit by bit—so that one day they might have it complete, secure?

Even so—the fruits of Victory are not alone for those too young to know the privations of war... not alone for posterity.

Here and now, men and women of our generation—scarred and wearied by long, grinding years of war—shall know the blessings of a new-born day.

This new day is for the common man... for greater social justice, for broader opportunity to enjoy a richer, fuller life.

No thinking citizen here in Canada, or in any land touched by war, would believe for a moment that our problems are past.

The prospect ahead is no easy one... Yet it cannot daunt the hardy stock of Canada—the men and women who carved this nation out of a wilderness, who through the years have fought the good fight as each emergency arose—down to the last Victory Loan... down to the last blood donation.

No, the prospect is hard, but a new spirit is abroad. We Canadians, like all our Allies who have fought this fight with us, have been chastened by the ordeal, and we are determined—by the effort of the individual citizen... by the effort of the community—to bring a better, stronger, healthier world out of the raging storm through which we have passed.

This is a day for cheering not simply for victory over dictatorship, but for the assurance we have of the dawn of a better day.

This message is published as an expression of faith in the future of Canada by the Bank of Montreal, which has been working with Canadians in all walks of life since 1817.

**NOW THERE'S
A FUTURE
IN FARMING**

**Under Liberal Government,
Farm Incomes Rose Steadily**

ONE out of every three men working in Canada is on the farm. Agriculture is the nation's most important industry. Since 1935, your Liberal Government has kept farming at the top of its list for action. Look at the panel (left).

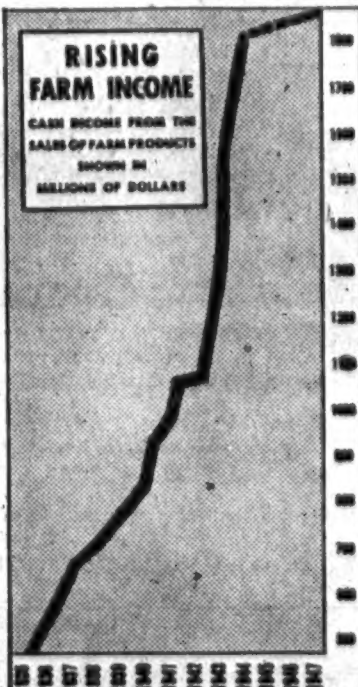

Although 23% fewer men have been available for farm work, production has increased more than 40%—a splendid record of achievement for victory!

Even before the war, by securing foreign markets, taking off surpluses and stimulating home consumption, your Liberal Government assisted in raising total farm income by 45%.

During the war, the farmer for the first time was put in the sound position of knowing exactly how he stood financially. He was protected against increases in his costs of production and guaranteed a market at fixed prices for a specified volume of produce. In 1939 farm income was \$772,000,000; in 1944 it was \$1,817,000,000, an increase of over a billion!

After the war, your Liberal Government has arranged to keep farm incomes up by floor prices on farm and fish products, and by foreign trade... to improve farm living conditions by Family Allowances, National Housing Plan, Farm Improvement Loans Act, and other social measures... and to secure agriculture's future by conservation of soil and other natural resources together with farsighted projects for irrigation, road and other improvements as soon as manpower and materials are available.

When you vote Liberal you act for your own and your family's continued welfare.

Cash income from the sale of farm products (millions of dollars)

WAINWRIGHT, WEDNESDAY, MAY 16th, 1945

Wainwright Is Dirty

To look down the main street of our fair town, it practically makes you shudder. There is lots of wind, over which no one has any control, but the fact still remains that it does not have to carry a lot of paper and cigarette boxes.

Most people would never think of throwing a chunk of paper on their living room floor. How come, they take the liberty of just heaving it to the winds when they are on the street.

For a traveller or visitor to come into our town, it must be a great shock to see the untidy condition of the gutters along the sidewalks. I bet they wonder how the progressive people, the sidewalks. I bet they wonder how a progressive people,

Now a solution to the problem would be to have metal garbage containers placed at convenient intervals along the street where people could deposit their cigarette boxes, chewing gum and chocolate bar wrappers, and other such paper wastes.

They wouldn't have to be expensive nor elaborate, but to defray the expense, there could be a holder on all four sides, where advertising cards could be placed.

There are a lot of wide awake merchants who know the true value of advertising, that would be more than willing to have their advertisement placed on these containers. The cost would be small, compared to the results achieved. It would have to be taken as a long term investment, with the prospect of no great returns in sight for awhile. However this should not deter our efforts in such a worthwhile undertaking.

Think this over Mr. Citizen, and maybe this undertaking could be brought to the attention of our local Board of Trade, or some other institution, that is interested in the well being of our community. Here's hoping.

WAINWRIGHT DID IT AGAIN

The final week of the VIIIth Victory-Loan has past and Wainwright has done it again. With a quota of \$244,000.00 to reach, it did not look like the district would ever go over the top, until the very last minute.

However, through the untiring efforts of our Victory Loan salesmen, Wainwright and district reached a quota of \$245,850.

Just as a bit of knowledge, it is funny how we do things in this town. At four o'clock in the afternoon on Saturday last, the quota was no where in sight of being reached. Then all of a sudden the bond purchases came thick and fast, to reach a new high in Victory Bond purchases for our town.

Why is it that the people that bought Bonds on Saturday afternoon last, would wait until the very last minute? Is it the thought that, "well if they make it this time without me I won't bother buying." Well to my way of thinking that is a very selfish way to go out whole-heartedly for victory.

However, the fact still remains that those people did buy Victory Bonds, and our town has that to be thankful for. It put us over the top, and that is all anyone can ask for.

It would be a "grim show" if Wainwright did not make a Victory Loan quota as we always have in the past. The boys that have been slugging it out over there for the past five years didn't take the attitude, "Let George Do It," why should we here at home, with all the comforts that would be luxuries, anywhere else in the world.

Many thanks are due to our salesmen. True, they do receive a small remuneration for their part in a victory loan drive, but in practically all cases this doesn't even pay the car expenses that are involved. Many times the money that is needed for expenses has to come out of the salesmen's pocket. In all cases, the expense money has to be put up by the salesman while the drive is on, and it is not until sometime afterward that his commission cheque arrives. This in itself is no small matter as his expenses are usually greater than the justification received. Most of the salesmen are working men and are away from their work a great deal, for a period of three weeks. You can see that a victory loan salesman has no snap of a job.

Wainwright did it again, and let this be a warning, this isn't the last Victory Loan and we shall be called upon again to LEND our money to our government. Next time we will go over the top just like this time and it isn't a hard thing to do if everybody puts their shoulder to the wheel like they did this time.

Making peace is not just writing
 an agreement. It is living in agree-
 ment and that's something else
 again.

FACTS ARE NOT ENOUGH

We look to armies to defend our shores. But when it comes to defending our principles we look to a few dependable forces—the power of publicity. Complete and continuous publicity seems to us the only sort of safeguard we need against any kind of inner menace. "Just give the people the facts," we say. "Expose what's going on behind the scenes." And that, we think, will automatically take care of every injustice, curtailment of freedom or any other act that endangers the Canadian way of life.

But facts, unfortunately, are not enough. There may be honor among thieves but there is little sense of indignation. You do not arouse robbers with the "facts" about a robbery. And no exposure of injustice or of usurpation of power strikes action in a man who himself has no principles of justice and freedom.

The Canadian way of life grew out of new political ideals and a deeply rooted religious conviction. Large numbers of our people today lack their forefathers' spiritual convictions and clear vision of political democracy, they cannot well be roused by a transgression of these principles. The "facts" will simply leave these people cold. "Exposure" will be merely an uncovering of something which is not especially abhorrent to them.

What we need, then, is not more facts but more conviction. More disclosures of graft and corruption will get us nowhere unless we have more honest people. Some sit up and view with alarm our "swing to the left." But our need is for more people who will wake up and stand out for what is right. And for more people who will courageously take upon themselves that full personal responsibility which is democracy's only answer to totalitarianism.

If publicity is to save our Canadian way of life we must have more publicity about people who are living that way of life—not just more "facts" and "disclosures" about the transgressors.

OUT

OF OUR ABUNDANCE

This is our Eighth Victory Loan. Year after year we have subscribed with varying emotions. There were days when we did so, feeling almost that we were paying for life and liberty. Now we are asked to subscribe when we have a confident knowledge that victory is sure.

There is encouragement in that change, but there is also ground for sober thought. As we come closer to victory, the tempo and the destructiveness of war increase. With that increase there is a growing cost—a cost in dollars that we can afford; a cost in young lives that it is impossible to estimate. This youth that is so gallantly offering itself has no delusions that victory is easy, or that the need for sacrifices will be over when the present fighting ends.

The tragedy would be if we or they should confuse the end of open fighting in Europe with a real lasting peace, or that, having set our hand to so great a task, the first sign of victory should lead us to think that we had sacrificed enough. Germany's surrender cannot end the demands that face us. There is another war in the Pacific, and even when that war has ended, victory will still be distant. There can be no real victory until there is some shadow of peace in a war-torn world. There can be no lasting prosperity here while there is bitterness and despair abroad. Our narrowing world has made each one his brother's keeper, in his own selfish interests if for no higher reason. So our Victory Loans must assure us not only the success of arms but the larger and wider success of peace. We are as much obligated and interested in paying for the one as we are in paying for the other.

There can be no comparison between one who offers his life and one who offers his money at interest. Yet to most of us, the loaning of our money and the small, immediate doing-without that this entails are almost the greatest contributions we can make for this war and for a lasting peace to follow.—Liberty.

LOCAL ELKS

SOJOURN TO VIKING

The local Wainwright Elks Lodge of forty members journeyed to Viking on Sunday, May 9th where the district meeting was held in the Elks' Hall.

There was an attendance of approximately 100 members from District No. 14 which is comprised of Chauvin, Viking and Wainwright Lodges.

After lengthy discussion of the business in relation to the Lodge, the competition for the Elks Cup took place. (This cup being donated to District No. 14 by Bro. Carsell.) The winning of this cup was keenly contested by Viking and Wainwright lodges with Wainwright receiving the honour of holding this award for year 1945-46, thus ending a very successful district meeting in Viking.

WISHING WELLS WHERE

WISHES COME TRUE

Many unique methods have been employed in raising funds for the Canadian Red Cross, but none perhaps more popular than the "Wishing Wells" in Banff and Riding Mountain National Parks. They are relatively new as far as raising Red Cross funds in the national parks is concerned, and they seem to appeal very strongly to park visitors.

The "Wishing Well" in Banff National Park, Alberta, is a pool just below a waterfall. In it were dropped "wishing coins" to the total of \$430.14 during the past season. In

Riding Mountain National Park, Manitoba, the "Wishing Well" netted a total of \$252.65, this amount being deposited in the pool by none less than 21,360 persons. When it is remembered that the Canadian Red Cross has spent upwards of \$70,000,000 since the outbreak of war these sums may seem small, but the disbursement of this enormous total has been made possible very largely by comparatively small contributions received from a large number of persons, old and young, in Canada.

"Wishing Wells" go back to early times. They seem to have been popular among the Grecians and were supposed to be of a prophetic nature. For instance, by dipping a mirror into the "Wishing Well" the Patraeans of Greece received, they supposed, some notice of ensuing sickness or health from the various figures portrayed upon the surface. In Laconia they cast into the pool, sacred to Juno, cakes of corn-bread. If these sank, good news was portended; if they floated, something dreadful was to ensue.

Among the early "Wishing Wells" in England was one, the "Well of St. Catherine's", at Milton, where spinners dropped a coin and wished for a handsome husband. Another "Wishing Well" at Walsingham was supposed to have curative powers for certain diseases.

War is the price of the selfishness of nations.

Damning the system, often enough, is just our way of dodging its responsibilities.

We need a sense of public responsibility in every private decision.

The Star does not hold itself responsible for opinions expressed by correspondents. All letters must be signed by the writer of name and should not be longer than 200 words.

Dear Editor:

There is a "Jehovah's Witness" going about our district with literature published by the Watch Tower Bible & Tract Society.

In doctrine "Jehovah's Witnesses" deny the Deity of Christ. The Bible states of Christ: "and the Word was God" (John 1:1). "Jehovah's Witnesses" translate this, "a god," in spite of the fact that in the Greek the word for God is spelled with a capital letter.

If "Jehovah's Witnesses" would but be faithful witnesses they would quote Jehovah's words in Isaiah 45:21-22. "There is no God else beside me; a just God and a Saviour; there is none beside me. Look unto me, and be ye saved, all the ends of the earth; for I am God, and there is none else." This clearly tells us there is only one true God; all other

gods are false gods. As Jesus is "a god" by their own admission. He must be either a false god (like the devil), or the true God, one with the Father. To deny the Deity of Christ makes Him "a false god." However, many passages of Scripture state Christ is God, as Heb. 1:8; Acts 20:28; etc. In Rev. 1:8 Jesus positively declares Himself to be "the Almighty."

Any religious system which makes out that Christ our Saviour is "a false god" is not Christian, but Anti-Christian.

This warning is issued so that all may beware of the terrible error hidden in this literature.

Yours respectfully,
 DAVID J. GIBSON.

EDGERTON

1944 Victory Wheel draw was won by Jeanette Cornfield with No. 14.

Letter and postcard were received from Sapper Jimmy Arneson and Trooper E. R. Pawsey saying they had just received some more cigarettes from the local fund.

Tuesday, the day when the good news of victory in Europe was marked, Pawsey's hall was filled to capacity and a thanksgiving service conducted by the Revs. R. Clegg and Vincent Cole. A parade composed of veterans of all the services, the School Cadets, members of the C.G.I.T. and the school children mustered at the school under the command of Lt. G. C. Welsh and marched to the hall to take part in the service. A ball game and some sports took place at the sports grounds in the afternoon. A dance took place the previous night in the hall.

Monday and Tuesday nights a very good show of magic was staged by Mr. J. Green a veteran magician and thoroughly mystified the audience, particularly the children, many of whom had not seen anything of the kind before. The hall was filled both evenings.

Geo. Sawyer was a city visitor Tuesday, returning Wednesday with a new truck for Dave Tramer.

LAC Jimmy Miles of the R.C.A.F. was home for a few days leave.

Mr. and Mrs. Percy Wolf were visitors here for a few days. Kevin Wolf is now driving one of Norman Miles trucks. He has his discharge from the R.C.A.F. in which he had attained the rank of Pilot Officer.

Fifty-two dollars worth of cigarettes were ordered for despatch for the local boys overseas from the cigarette fund.

Alco Culvert has commenced building his new house near the Creamery. Thanksgiving services were held in both churches Sunday evening. The C.G.I.T. in charge of Miss Edith McRoberts conducted the service in the United church and Mr. F. F. Mitchell conducted the service in St. Mary's. Both services were well attended.

Everyone should be happy at the conclusion of the 8th Victory Loan when the amount subscribed in the Edgerton-Chauvin Unit exceeded the quota of \$130,000 by more than \$26,000. There are still a few more subscriptions to come in and the final amount will be published next week.

GREENSHIELDS

Mr. and Mrs. Oscar Jackson left for their home in Wisconsin after visiting Mr. and Mrs. Walter Jackson and family.

Miss Doris White was home for the week-end from her teaching duties at Battleview.

Mr. and Mrs. J. Kett and family were Sunday visitors at A. E. Kett. Mr. and Mrs. M. Harrison of Langley Prairie, B.C. arrived at Ed. Patterson's where Mr. Harrison has secured employment.

Mr. and Mrs. J. Rabby and family accompanied by Miss E. Kosak motored to Haight for the week-end. Mrs. H. Morrisette of Wainwright is a visitor at the Morrisons.

Mr. T. Patterson having rented his farm to Mr. D. Roach, moved to a new place. A large crowd attended the regular fortnightly dance in the hall on Friday with the Harley Murray and Brittany orchestra supplying the music. The next dance will be held on May 25th.

The following Officials have been appointed for the Greenshields Poll in the Dominion Election on June 11th, 1945. Mrs. W. C. Jackson, Ennumerator; Mr. Rufus Carl, Deputy Returning Officer.

An Open Letter

FROM THE
Battle River Co-operative Commonwealth Federation Constituency Association

The following reader is a paid advertisement and does not constitute an endorsement of "THE WAINWRIGHT STAR", as during the time of elections it is our policy to remain neutral throughout these columns. We believe this to be the fair way of dealing with all parties.

We are in receipt of a letter, which has also appeared in the local press; from the Labor Progressive Party, which in effect suggests that the C.C.F. become part of the aforesaid L.P.P. Any thing more fantastic is hard to imagine, and the arguments advanced in its favour are equally so. The letter invites the C.C.F. to join with the L.P.P. and other progressive forces. While not informing us who are considered the progressive forces, the mention of the Tories and the Social Creditors as opposing pro-

gress, leaves little other than Liberals of one sort and another to be labelled as progressive. These Liberals have been in power for many years, and the record shows that the only difference between them and the Tories is that of the in's and out's. If the L.P.P. considers these Liberals progressive why run candidates to oppose them?

It is useless to ignore what history and the ideas of common interest tell us; in the event of a strong contingent of C.C.F.ers being elected, the Liberals and the Tories will join forces in order to stop progress, and continue the "dog eat dog" system.

The Gallup poll is quoted as giving a line on probable results, why? This organization has already been shown to be incorrect, unreliable, and subject to interests hardly to be considered disinterested.

We have to thank the L.P.P. for labelling the C.C.F. as progressive; but, please do not place us in the same jar as the Liberals or the Conservatives will not jail.

An opportunity will be given everybody during this campaign to inform themselves fully of the policies of the C.C.F. which in short is HUMANITY FIRST.

Our candidate Mr. H. E. Spencer, who was first nominated to represent Battle River is certainly going to run under the banner of the C.C.F. He represented the riding with distinction for fourteen years and the public will be fortunate to have him as their member again.

Yours truly

T. C. SANDERS

To the memory of those who died... our reverent prayers. To those at home who have given so much to bring about Victory... our humble thanks.

THE HOUSE OF SEAGRAM

Farm Notes

CONTROL METHODS

PERENNIAL WEEDS

Perennial weeds, those that propagate and spread by both seed and root, or underground stem—after once becoming established are difficult to eradicate, says H. E. Wood, a member of the National Weed Committee. Perennial weeds, from the standpoint of control, are divided into two groups: One is termed "deep-rooted and persistent". Belonging to this group are Leafy Spurge, Field Bindweed, Hoary Cress, Russian Knapweed, Bladder Campion, and Poverty Weed. In Western Canada, in certain districts, one or more of these weeds have become serious problems. These weeds cannot be controlled by even very good farming operations. Control, and often eradication, can be obtained by following special methods.

The cheapest and most effective method of eradicating any of the deep-rooted persistent perennial weeds in small and scattered patches is by the application of chemical. Sodium chlorate or Atlacide, the trade name, has been in use for many years and is regarded as the most effective of the several chemicals in use.

Generally speaking, the use of chemical will be found more effective if placed in the hands of trained officials with proper equipment, rather than to depend upon an individual farmer to look after his own problem. In the Province of Manitoba, several municipalities are grouped together as Weed Control Units. Each unit with its own equipment, employs a spray crew that does all chemical treatment within the unit. Success in eradicating small and scattered patches of these weeds has been attained by this plan.

When extensive infestations of deep-rooted, persistent, perennial weeds are met with, control by chemical becomes too expensive. If the land is of sufficient worth to merit intensive cultivation, this method of control should be followed. If, however, the soil is very poor or of such a nature as to blow easily, cultivation should not be tried.

In adopting a program of "intensive cultivation" the underlying principles of thorough work, regularity of operations and cultivation carried over a sufficiently long period, must be observed. Under certain conditions, especially if soil drifting becomes a hazard, it may be advisable after one season's cultivation, to seed to a quick growing crop such as barley. The field should be cultivated immediately before the crop is seeded. Again, immediately after the crop is harvested, cultivation should commence and continue until freeze-up, and

through the following year. Fall rye may also be used where drifting is likely to be a problem during the winter.

Control of deep-rooted perennial weeds on marginal and sub-marginal land presents a difficult problem. Mowing to prevent seed setting should be encouraged. Pasturing, especially with sheep, offers possibilities. Where leafy spurge has been heavily pastured with sheep some excellent results have been noted. Seeding such lands to grass and legumes appears advantageous. Grasses with aggressive root systems, such as crested wheat grass appear to be able to compete with even the most persistent deep-rooted perennial weeds.

TRACTOR CARBURETOR

ADJUSTMENT FOR

FUEL SAVINGS

In the opinion of B. T. Stephenson, Agricultural Engineer for the Alberta Department of Agriculture, economy at full load has been over-emphasized in the past, and economy at average work neglected. Some studies have shown that only about 25% of the tractors work with an average of 60% or more of the rated horse power, says Mr. Stephenson. Only about 4% of the tractors operate with 85% of rated horse power. This shows that part throttle operation is a normal condition and that the carburetor must be set for that load for most economical operation. When full power is needed for heavy work, the carburetor needs adjusting for that condition. If the tractor is used for lighter work, the carburetor should be adjustable for the right load. The practicable course for the owner is to experiment with his engine as best he can to determine whether such re-adjustment is necessary.

The carburetor may be adjusted for power and it may be adjusted for economy. Adjusting the needle valve to fit the job does this and saves fuel. For low speed adjustment the engine should be started and the idling adjustment set so that the tractor idles smoothly and slowly. To be sure which is the idling adjustment and which is the needle valve adjustment look in the instruction book for a labeled diagram. For high speed adjustment open up the throttle rapidly when the engine is warm, and notice whether or not the engine hesitates or picks up quickly. If it hesitates slightly, the mixture is lean and correct for light work; if it picks up quickly, the mixture is rich, and may be too rich. Adjust the needle valve to get a lean mixture or until the engine hesitates. To do this, close the needle valve a small amount at a time and test by open-

World of Wheat

Searle Grain Company, Ltd.

AN EASY WAY

TO GROW VEGETABLES

When I was farming no one seemed to be anxious after the day's work to hoe the vegetable garden. So, we took a short cut. Immediately after wheat seeding we ploughed a long strip on the stubble we intended to summerfallow, then sowed our vegetables on this ploughed strip in long single rows, leaving a space between the rows wide enough to accommodate the usual cultivator or disc. Then as soon as the vegetables came up we ran the disc or cultivator between the rows occasionally as we were going out to the fields to work. This only left weeds to be pulled by hand between the plants in the rows. The land sown to vegetables in this way was quite suitable to be used the next spring for the sowing of grain.

I recommend this method to any who are short of labour, or who lack a nice piece of clean land near their house to grow vegetables. Another advantage is that new fresh

ing the throttle rapidly. Once the carburetor is set correctly, a mere twist of the wrist will change from a rich to a lean mixture or from a lean to a rich mixture to fit the job.

land can be chosen each year to sow the vegetables. Some people think that vegetables lose certain qualities if they are sown on the same piece of land year after year. Certainly with this method the vegetables are fine, large and healthy looking.

ITEMS OF INTEREST IN THE WORLD OF FOODSTUFFS

France is reported to be short of a third of her minimum wheat requirements. On a pre-war basis of consumption the deficiency would be in the neighborhood of 86 million bushels—Uruguay's 1944-45 grain harvest was considerably reduced from the 1943-44 production and was also below average according to recent reports—Prairie wheat acreage this year has been unofficially forecast at 21,773,299 acres, compared with 22,443,800 acres last year. Broomhall reports that spring ploughing and seeding in the United Kingdom have made excellent progress in recent weeks—Seasonable weather is reported in Italy, the Balkans and Northern Continental countries, and good progress has been made in spring seeding.

So flying is a dangerous business and you'd just as soon keep one foot on the ground? Well, motoring is an even more dangerous business if you are ready to accept the best available figures on the subject. In 1941 before gasoline rationing, somebody was killed in a private automobile every 36 million passenger miles. In scheduled airline operation on the other hand, there was only one death for every 45 million passenger miles.

Figures on passenger miles per fatality in private flying are not available, but admittedly it is more dangerous than scheduled flying. The reasons are not as mysterious as one might suppose. In fact, few plane accidents are mysterious. Government investigators usually get to the bottom of them. Your newspaper story of the crash may give no reason, and often the reason never does see print. Often when investigators may be morally certain of the cause, the proof is not sufficient to warrant release of their suspicions.

Actually it might be a good thing for flying if the public was told promptly exactly what was believed to be the cause of each accident, even if it did reflect on a man whose life had been lost, for the unpleasant truth is that most private flying accidents are caused by almost criminal foolishness. Motor failure, for instance, is one of the rarest causes of private flying accidents.

Low level flying probably causes more private plane crashes than anything else. Motorists often lose their lives by drunken driving. Drunken flying has not been unknown either, but aviation has taken it on the chin for the mystery which has surrounded crashes caused by such flying.

Good Luck Recipe for the Laundry

There'll be luck in your house on laundry day, even if your man's shirts have been added to your laundering quota, if you master a few expert tricks. First of all, rub thick suds on soiled collars and cuffs, roll them inside the shirt, soak for 15 minutes. Just before washing, scrub with a soft brush. Whether you use a tub or a washer, be sure to use enough soap for a two-inch standing suds, and dissolve bluing flakes with the soap to make sure of gleaming white and bright colored shirts that will never have streaks. You'll save time, too, by eliminating the need for a special bluing job when you use bluing flakes in the suds. Be sure to add a specially prepared wax-like product to the starch to give your shirts a satiny smooth finish and to keep the iron from sticking and pulling.

HERE'S MY FEED PROBLEM...

How can I get better results from feeding baby pigs?

HERE'S THE ANSWER

The cost of a hog starter feed should be measured by the growth and health it gives baby pigs. With "Miracle" Hog Starter you will find your litters grow faster and become strong and healthy because "Miracle" Hog Starter is scientifically tested for exact balanced food value.

We understand the Co-Op store will take over Sowers Store this week and are now busy making the necessary alterations.

Mrs. Stan Murray entertained the members of the Ladies Aid at her home on Thursday.

V-E celebration included a get together at Mr. and Mrs. P. F. Peterson's. A Treasure Hunt and a soft ball game between Wainwright and the local juniors in the evening. The score is still in doubt as both teams claim victory.

The Mother's Day Service in the School with Rev. Richard in charge was well attended.

Failure to paint the edges of window screens which do not show when the screen goes up in the spring can be a costly error. Lack of paint on the unseen edges allows dampness to penetrate the wood, with resulting rotting and warping.

LLOYDMINSTER BULL SALE

The ever increasing popularity of the Annual Lloydminster Bull Sale, Tuesday, May 20th, is again shown by the large number of entries and the large area in which the contributors reside. There are 77 Bulls offered; 40 Shorthorn; 1 Angus and 36 Herefords. There are also 6 Hereford females, two having calves at foot. This Sale offers breeders the opportunity of securing high quality sires, having excellent blood lines.

Among the contributors with the larger number of animals entered: Herefords—A. A. Mitchell, Lloydminster, Sask.—4; Hawkins Bros., Strathmore, Alta.—3; Homer Campbell, Derwent, Alta.—3; Mike Nichuk, Vermilion, Alta.—3. Shorthorns—A. C. McElhinny, Provost, Alta.—4; W. H. Cooke, Furness, Sask.—4; and Wm. Cornish, Manville, Alta.—3.

Judging commences at 10 a.m. Professor E. E. Brocklebank, University of Saskatchewan, Saskatoon, placing ribbons. The Sale begins at 1:30 p.m. S. W. Durno, Calgary, is the Auctioneer.

This Sale is now in its 26th year and is held under the auspices of the Lloydminster Agricultural Exhibition Association. For catalogues apply to Geo. K. Ross, Exhibition Manager.

BLOOD DONORS STILL URGENTLY NEEDED

Wouldn't you be proud to know that the blood you had donated, was being used to save a life?

Register at once with either Mrs. Conroy, Mrs. Lally, Mrs. Graham or Mr. Smith. The Red Cross Blood Donor Clinic will be in Wainwright May 22, 23, and 24, this will be your opportunity to save a life.

The war in Europe is over, but the fight to save life still goes on, and blood transfusions will be required for a long time to come. Celebrate victory by donating your blood.

SAY THANKS WITH BONDS

Here are eight main reasons why Canadians should buy Victory Bonds and which provide proof of the importance of the Victory Loan at this time. Here are "Eight for the Eighth."

1. To help bring the men and women of our Armed Forces home.
2. To provide the funds for the rehabilitation and re-establishment of returned men.
3. To provide the funds for the payment of gratuities and pensions to returned men.
4. To help pay our full part in the war against the Japs.
5. To join with our Allies in helping the destitute liberated peoples.
6. To maintain the fight against inflation.
7. To provide increased personal security for individuals in the future.
8. To enable individuals to purchase peacetime goods and services as they become available.
